Swift

👤 PROFILE

Have worked on various personal projects within the Apple ecosystem and am looking to collaborate as part of a productive team. Acutely able to self-manage. Possessing iOS full-stack experience including designing, implementing, and publishing apps to the App Store. Currently enrolled at Grand Canyon University and studying computer programming; looking to grow in programming skills.

💼 EMPLOYMENT HISTORY

iOS Developer (Independant Contractor) at A+ Card of Central Texas, Waco
November 2019 — April 2021

Responsible for full-stack development of A+ Card's iOS App to connect users to relevant business deals. App included integrations with Firebase Firestore, NoSQL databases, location-based updates, maps, and custom UI components and was built entirely in Swift with some JavaScript backend. Principle and sole programmer responsible for bug fixes, updates, and maintaing the app on the App Store.

- UI Design
- 3rd Party API integration
- Firebase Integration
- NoSQL database
- GPS integration
- Push Notifications
- App Signing
- Testing/Bug Fixes

Team Leader at Chick-fil-A, Waco
March 2018 — April 2021

- Responsible for maintaining everyday operations
- Assisting in training new Team Members to set standards
- Correcting and coaching existing Team Members
- Creating/implementing new systems in a waste-eliminating manner

🎓 EDUCATION

B.S. in Computer Programming, Grand Canyon University
March 2019 — April 2023

Enrolled in Junior Year at Grand Canyon University
